

## Cover Letter

Dear Hiring Manager,

I am excited about the opportunity to work with your team. As an Associate Java Developer with nearly one year of professional experience and a Post Graduation Diploma in Advanced Computing from the Centre for Development of Advanced Computing (C-DAC), Pune, I have developed a strong foundation in software development and programming.

During my time at Smarbl, Pune, I have honed my skills in **Java, Spring Boot, PostgreSQL, Docker, and microservices architecture**. My experience includes developing Java applications to meet specific requirements, managing microservices for efficient and scalable solutions, testing and debugging source code, and conducting JUnit 5 testing to ensure code quality and robustness. I have also utilized Jenkins for continuous integration and deployment.

In addition, I gained practical experience in the industry during my six-month internship at ProAzure Software Solutions Pvt. Ltd. in Pune, where I improved my abilities in Java development and other relevant technologies.

As a quick learner with a passion for technology, I am confident that I can contribute to your team and grow professionally while working on challenging projects. I am eager to bring my skills and experience to your company and help drive innovative solutions.

Please find attached my resume for your review. I would appreciate the opportunity to discuss how my skills align with the requirements of the position. Thank you for considering my application. I look forward to hearing from you soon.

Sincerely,

  
Swati Wanjari
